

EDX5000.1FD-E4

XTREME SERIES MONOBLOCK AMPLIFIER

The Xtreme series from EDGE offers the big brothers to the new Street series Full bridge full range class D amplifiers in single channel and stereo applications.

The Xtreme series amplifiers are new to the EDGE range and feature Class D topology but use a full bridge method of power delivery.

This is more efficient method of converting DC power from your battery to AC output for your speakers. Full bridge technology allows us to generate large power in a tiny footprint. The custom tooled heatsink was designed with over engineered fins for excellent heat dissipation ensuring the amp works well and cools correctly.

All models have built in active crossovers and bass boost and can be used to power subwoofers, midrange drivers or tweeters. To power Xtreme series speakers and subwoofers you need Xtreme amplifiers.

Model	EDX5000.1FD-E4
Configuration	Monoblock
Maximum power	10000 Watts
Frequency Response	15Hz - 20kHz
Crossover type	LP/HP
Crossover Range	15Hz - 20Hz
Recommended Fuse	350A external fuse
Topology	Class D

CLASS D: This provides high efficiency amplifier ideal for great bass.

WIDEBAND FREQUENCY: The smooth wide frequency response is designed with component use in mind these speakers are designed to blend seamlessly with other drivers.

BASS BOOST CIRCUIT: The amplifier has fast and easy turn on with accurate sound.

COMPACT FOOTPRINT: The amplifier is highly efficient and uses low amounts of power.

WIDEBAND FREQUENCY

The amplifier has wideband frequency of up to 20kHz

CLASS D TOPOLOGY

With class D technology the amplifier is highly efficient

BASS ENHANCE

The music quality is louder and installation is an easy process

ACTIVE CROSSOVERS

The active crossovers provide faster and clearer sound quality.

FULL BRIDGE TECHNOLOGY

This is high quality technology

COMPACT FOOTPRINT

This new technology has a lower carbon footprint and this increases likability
