

Stroker Subwoofers

Stroker Series Dual Voice Coil Subwoofer

ONE SHEET

The Cerwin Vega STROKER Series subwoofers are the ultimate choice for car audio enthusiasts who want to go big. With their ability to handle massive power, deliver high-excursion performance, and produce clean, distortion-free sound, these subwoofers are built to meet the demands of extreme sound systems and SPL competitions. Their robust construction and advanced technologies ensure they can withstand the rigors of high-performance audio applications, making them a top choice for anyone looking to achieve the pinnacle of car audio performance.

The Cerwin Vega STROKER Series subwoofers are designed for enthusiasts who demand high power, high performance, and exceptional sound quality from their car audio systems.

FEATURES

- **Dual Spider Design:** Provides improved stability and linearity for accurate bass reproduction.
- **Reinforced Cone:** Made from high-strength materials to withstand high pressures and prevent deformation.
- **Vented Pole Piece:** Enhances cooling and reduces power compression, maintaining performance during extended use.
- **Customizable Appearance:** Some models feature customizable trim rings or other aesthetic options to match your vehicle's interior.
- **Laminated Black Ribbed Design Pattern on Treated Semi-Pressed Cone**
