

VPAS68

UNDER-SEAT BASS SOLUTION

TECH SHEET

Upgrade your vehicle's sound system with the Cerwin-Vega VPAS68 VEGA Series Active 6"x8" Subwoofer Enclosure, a compact yet powerful all-in-one bass solution designed for modern car audio systems. Engineered for performance and convenience, this active powered subwoofer enclosure delivers deep, punchy bass without sacrificing valuable interior or trunk space.

The VPAS68 powered subwoofer features a fully integrated amplifier housed in a durable cast aluminum heatsink, ensuring efficient heat dissipation and long-lasting reliability. This smart design allows for consistent performance even during extended listening sessions, making it ideal for daily driving or long road trips. With its plug-and-play installation, the VPAS68 is perfect for both factory and aftermarket audio systems, simplifying the upgrade process without the need for complex wiring or multiple components.
